George Eastman and the Kodak Camera Graphic Library ...

With the introduction of the first Kodak box camera, suddenly non-photographers could shoot photos. But the original box camera, introduced in 1888, cost \$25 – out of the reach of many. Source: <https://bit.ly/2QHdD6Z>. As a young man, George Eastman developed an interest in photography, which at that time involved using the wet plate process. This involved coating a glass plate with an emulsion, exposing and then developing it before it dried.

GEORGE EASTMAN: The Father of Kodak - Samy's Camera Photo Blog

In 1898 George Eastman asked Frank Brownell, his camera designer and manufacturer, to design the least expensive camera possible while at the same time making it effective and reliable. Eastman realized that if the cost could be reduced that more people, especially children, might take up photography which would lead to future film sales.

Brownie Box Cameras - THE BROWNIE CAMERA PAGE

George Eastman was an American entrepreneur who founded the Eastman Kodak Company and helped to bring the photographic use of roll film into the mainstream. Roll film was also the basis for the invention of motion picture film stock in 1888 by the world's first filmmakers Eadweard Muybridge and Louis Le Prince, and a few years later by their followers Léon Bouly, William Kennedy Dickson, Thomas Edison, the Lumière Brothers, and Georges Méliès. He was a major philanthropist, establishing ...

George Eastman - Wikipedia

Eastman named his company “Kodak” (later changing it to “Eastman Kodak”) and launched the first Kodak camera in 1888. It was a compact box shaped device which could take 100 pictures and cost only \$25. He coined the slogan “You press the button, we do the rest” in order to promote his products.

George Eastman Biography, Life, Interesting Facts

In George Eastman The first Kodak (a name he coined) camera was placed on the market in 1888. It was a simple handheld box camera containing a 100-exposure roll of film that used paper negatives. Consumers sent the entire camera back to the manufacturer for developing, printing, and reloading when...

Kodak camera | Britannica

George Eastman invented a dry-plate photographic system, and later the system of film on rolls of gelatin-coated paper, which effectively superceded the previous system of chemicals, glass tanks, and heavy plate holders that kept photography out of the reach of all but professionals and the most dedicated hobbyists.

George Eastman - NNDB

From the company's founding by George Eastman in 1888, Kodak followed the razor and blades business model of selling inexpensive cameras and making large margins from consumables – film, chemicals, and paper. As late as 1976, Kodak commanded 90% of film sales and 85% of camera sales in the U.S. Kodak developed and patented the first handheld digital camera in 1975.
