~~globalization and urbanization in africa~~

Globalization is a recent term that describes the process of integration between countries. However, we can trace the process of globalization to the early-recorded history of the African continent. Sub-Saharan Africa lags behind in taking advantage of global opportunities that exist today. This is because of internal and external factors.

~~Development and globalization in Africa — 1876 Words ...~~

The increase in urban population in Africa will be accompanied with an expansion in urban land. Between 2000 and 2030, urban land in Africa is forecasted to increase by nearly 600% (figure 2). The forecasted urban expansion in the continent is concentrated in five regions: the Nile River in Egypt, the coast of West Africa along the Gulf of Guinea, the northern shores of Lake Victoria in Kenya and Uganda and extending into Rwanda and Burundi, the Kano region in northern Nigeria, and greater ...

~~The Impact of Globalization on Africa~~

In general, however, the limited scope of globalization in Africa appears to be the result of a combination of poor initial conditions, such as fundamental disadvantages of location (disease-prone tropical countries with a harsh environment); inadequate political institutions; extremely under-developed physical infrastructure, and a related high risk investment climate.

~~Globalization, Growth, and Poverty in Africa — UNU WIDER~~

Globalization presents Africa and black people as marginal: globalizing economies seek resources from every corner of the world, and globalized economies reap considerable benefits from their economic and political dominance.
