Going paperless at work may seem daunting, but it will probably be easier than you think. In fact, many people find that paperless processes are much easier than traditional paper ones. Email is much faster than snail mail, scanning is quicker than faxing, and digital processes tend to work more smoothly with fewer hang-ups than those involving countless man-hours.

Going Paperless at Work: 5 Easy Steps and 10 Helpful Tools ...

A paperless office (or paper-free office) is a work environment in which the use of paper is eliminated or greatly reduced. This is done by converting documents and other papers into digital form, a process known as digitization. Proponents claim that "going paperless" can save money, boost productivity, save space, make documentation and information sharing easier, keep personal information ...

Paperless office - Wikipedia

What does it mean to go paperless in your office? While it sounds very noble, depending on your business type and internal processes it can be daunting to consider. Further, if you're like me or other co-workers I've spoken with, you just prefer not to. Personally, I make excuses about wanting something physical to hold on to and mark up.

Going Paperless at Work | The Environmental Center

Let's Work Toward a Paperless Future Every year, U.S. office workers produce approximately 1.6 trillion pieces of paper. If you stacked all that paper up – the paper printed, the paper faxed, the paper photocopied – it would reach halfway to the moon. You're probably thinking, "Why haven't we have moved past paper by now?"

How To Go Paperless at Home and Work

What it means to go paperless at work Paperless offices often use digital means to correspond internally and externally. Memos might be sent via email or through a work portal. Companies might also communicate using mobile devices and cloud-based programs or internal platforms.
