Fiona Macpherson and Dimitris Platchias (eds.), *Hallucination: Philosophy and Psychology*, MIT Press, 2013, 421pp., \$45.00 (hbk), ISBN 9780262019200. Reviewed by Clare Batty, University of Kentucky. The notion of hallucination has played a pivotal role in the philosophy of perception. From arguments for indirect realism, to representational views of experience, to recent discussions of direct realism and disjunctivism, hallucination has shaped our theorizing about, and understanding of, the ...

Hallucination: Philosophy and Psychology // Reviews ...

This new volume of essays, *Hallucination: Philosophy and Psychology*, is an excellent, although challenging, introduction to recent philosophical work on the subject of hallucinations. Edited by Fiona Macpherson, professor of philosophy at the University of Glasgow and codirector of the Centre for the Study of the Senses at the Institute of Philosophy, University of London, and Dimitris Platchias, a teaching fellow in the Department of Philosophy, University of York, the book arose from a ...

Hallucination: Philosophy and Psychology / Psychiatric ...

Evidence from psychology, neuroscience, and psychiatry has shed light on the functional role and physiology of actual hallucinations. The second strand is the development of a philosophical theory of perception known as disjunctivism. Some disjunctivist theories have as part of their ontology a radically new and different conception of hallucination.

Philosophy and Psychology of Hallucination: An ...

Scientific evidence from psychology, neuroscience, and psychiatry sheds light on the functional role and physiology of actual hallucinations; some disjunctivist theories offer a radically new and different philosophical conception of hallucination. This book offers interdisciplinary perspectives on the nature of hallucination.

Hallucination: Philosophy and Psychology - MIT Press ...

In recent years, neuroimaging techniques and scientific findings on the nature of hallucination, combined with interest in new philosophical theories of perception such as disjunctivism, have brought the topic of hallucination once more to the forefront of philosophical thinking. Scientific evidence from psychology, neuroscience, and psychiatry sheds light on the functional role and physiology of actual hallucinations; some disjunctivist theories offer a radically new and different ...

Hallucination: Philosophy and Psychology - CORE

The philosophy of perception is concerned with the nature of perceptual experience and the status of perceptual data, in particular how they relate to beliefs about, or knowledge of, the world. Any explicit account of perception requires a commitment to one of a variety of ontological or metaphysical views. Philosophers distinguish internalist accounts, which assume that perceptions of objects ...
