Handbook Of Industrial Water Treatment
Why Water Treatment is Needed: As feed-water
enters a boiler the heat causes hardness (calcium and magnesium salts) to come out of
solution. Untreated the hardness deposits on
the hot boiler metal to from scale. As water
evaporates in the boiler the feed-water
impurities concentrate.

Industrial Waste Treatment Handbook
The Water Treatment Handbook, through its
many revised editions, has become one of the
profession's essential reference works. This
new edition has been published in a
particularly critical background in terms of
water problems: scarcity and quality
degradation of water resources. SUEZ's teams
have turned to these problems as a major
