These heads have 1.900 intake valve and a 1.570 exhaust valve with a 1.650 intake port opening. These heads work well with up to 113 ci engines. Stage 1 heads on a 2016 107 ci twin cam produce 120HP with mild cams, a stock throttle body, and mild compression. Valve spring are good up to .600 lift. All Suburban Speed performance heads are dyno and flow bench tested to give you the most performance for your money.

Twin Cam - Cylinder Heads - Suburban Motors Harley-Davidson

Twin Cam Head Work Harley Davidson changed their valves and guides to a 7mm stem in 2005 and in 2006 they improved the core casting to feature bigger exhaust ports and a raised intake floor. Due to this improved design, there is less work involved in porting the 2006 onwards heads, and this is reflected in the price.

Twin Cam Head Work - The Only Harley Davidson Head Work ...

The heads are mounted on a custom built mount specific to Harley valve geometry - the only one of its kind in existence. I design my own seat angle profiles and every seat is tested with a Mira vacuum pump to ensure a perfect gas tight seal. General Engine Services. Cylinder Heads Those Dyno Guys

The Harley-Davidson Twin Cam are motorcycle engines made by Harley-Davidson from 1998 to 2016. Although these engines differed significantly from the Evolution engine, which in turn was derived from the series of single camshaft, overhead valve motors that were first released in 1936, they share a number of characteristics with nearly all previous Harley-Davidson engines. Both engines have two cylinders in a V-twin configuration at 45 ° . are air-cooled, and activate valves with push-rods ...
