ECE: Advanced Information and Network Security Homework 2 Fall 2012 1. The ciphertext 75 was obtained using RSA with n = 437 and e = 3. You know that the plaintext is either 8 or 9. Determine which it is without factoring n. Solution: The two possible plaintext are 8 and 9. Encrypt each to get 83(mod437) = 75 and 93(mod437) = 292. Hence, the correct plaintext is 8.

ECE: Advanced Information and Network Security Homework 2

Cryptography and network security solutions manual william stallings fourth edition. Solution Manual. University of Wollongong. Course. Cryptography (CSCI361) Book title Cryptography and Network Security; Author. William Stallings. Uploaded by. Ameera Haroon

Course Outline This course is an introduction to the broad field of information security (such as protocols for maintaining confidentiality of email or for secure web transactions). Note that there is not always a clear dividing line between the two areas.
