African toads that give birth to live young evolved the strategy to cope with mountainous regions lacking suitable areas of water for tadpoles to develop in. An international team of researchers ...

Why some toads don't have tadpoles
They also move differently. Strong hind legs allow frogs to hop and jump. Toads tend to crawl or make small hops. As the colouring of both species varies a lot, it's not easy to distinguish them based ...

Ways to help frogs and toads
films, exhibitions, gigs and more to book now All a whirl: see Edgar Degas's Before the Performance, 1896, at the National Gallery's A Taste of Impressionism Credit: Creative Commons CC by NC ...
