My Viking 500 says "Computer 500" on the front and was made in Sweden. It was a few years before the Lily line and was the model that Viking chose to fashion the Rose embroidery machine from. In all the years that I have used my machine I have never had a glitch in it.

I have the viking 500 and it does just fine. got it from an elderly lady that had to go into nursing home. It was well taken care of and I assured her I would use it and not abuse it. Have had it about 2 years now and use it alot. Do lots of piecing on it. Works great for piecing and quilting if you so choose.
