Given this, it is time that we explored the positive and negative effects of urbanization. Positive impact of urbanization: Safety: One of the main reasons for people to develop vast urban centers and one of the underlying need for rapid expansion was the most basic requirement ¶ safety. Urban centers made it possible for local governments! to centralize defense, pool resources and defend the population against various threats and most of them successfully.

Positive and negative impact of Urbanization - Essay and...

Abstract. The urban population in Ethiopia is increasing rapidly. If managed proactively, urban population growth presents a huge opportunity to shift the structure and location of economic activity from rural agriculture to the larger and more diversified urban industrial and service sectors. If not managed proactively, rapid urban population growth may pose a demographic challenge as cities struggle to provide jobs, infrastructure and services, and housing.
