In Search of Lost Time (French: *À la recherche du temps perdu*), also translated as *Remembrance of Things Past*, is a novel in seven volumes by Marcel Proust (1871–1922). It is his most prominent work, known both for its length and its theme of involuntary memory ; the most famous example of this is the "episode of the madeleine ," which occurs early in the first volume.

~~In Search of Lost Time - Wikipedia~~

Abstract. The key issue in analyzing brain substrates of memory is the nature of memory traces, how memories are formed, stored, and retrieved in the brain. In order to analyze mechanisms of memory formation it is first necessary to find the loci of memory storage, the classic problem of localization. Various approaches to this issue are reviewed. A particular strategy is proposed that involves a number of different techniques (electrophysiological recording, lesions, electrical stimulation, ...
