072.05 - INDUSTRIAL ORGANIZATION Jean Tirole: Market Failures and Public Policy EC'18 Tutorial: Industrial Organization Industrial Organization In economics, industrial organization is a field that builds on the theory of the firm by examining the structure of (and, therefore, the boundaries between) firms and markets. Industrial organization adds real-world complications to the perfectly competitive model, complications such as transaction costs, [1] limited information, and barriers to entry of new firms that may be associated with imperfect competition.
