Book Preview: Infinite Universe Theory by Glenn BorchardtInfinite In All Directions

Infinite In All Directions (1988) is a book on a wide range of subjects, including history, philosophy, research, technology, the origin of life and eschatology, by theoretical physicist Freeman Dyson. The book is based on the author's Gifford Lectures delivered in Aberdeen in 1985. Infinite in All Directions can roughly be summarized as a treatise on the universe and humanity's role and its responsibilities.

Infinite in All Directions - Wikipedia

Infinite in All Directions is a popularized science at its best. In Dyson's view, science and religion are two windows through which we can look out at the world around us. The book is a revised version of a series of the Gifford Lectures under the title "In Praise of Diversity" given at Aberdeen, Scotland.
