Internalizing vs.

Externalizing Behaviors

In order to understand an emotional

disturbance, we must be able to distinguish

between the student's internalizing and

externalizing behaviors.

When students with an emotional disturbance are experiencing stress, they will typically experience these types of behaviors.

Externalizing
The dynamics of
expressions of
internalizing and
externalizing ...

Due to the quiet nature
of internalizing
symptoms, children may
not receive treatment as
quickly as those with
more disruptive or
externalizing symptoms.

In fact, because they are
often disruptive and

Read Online Internalizing

noticeable to others around them, externalizing symptoms in children have received quite a bit more attention and research than those of internalizing symptoms, but that is starting to change.

Internalizing Behaviors
and Depression in
Children

Internalizing means

Read Online Internalizing

keeping your feelings or issues inside and not sharing your concerns with others. Internalizing is a symptom of several mental health disorders, but is frequently seen in borderline personality disorder (BPD), an illness characterized by extreme mood swings, erratic changes in self-image and behavior, and impulsivity.
