International IEC Standard 61300 2

International Standard IEC 61300-2-2 has been prepared by subcommittee 86B:

Fibre optic interconnecting devices and passive components, of IEC technical committee 86: Fibre optics. This second edition cancels and replaces the first edition published in 1995 and constitutes a technical revision. The text of this standard is based on the following documents: FDIS Report on voting 86B/1780/FDIS ...

IEC 61300-2-1:2009 - Standards Australia

This part of IEC 61300 describes methods for quantitatively assessing the end face quality of a polished fibre optic connector or of a fibre optic transceiver using a fibre-stub type interface. Sub-surface cracks and fractures are not considered in this standard.
