#### IEC 62040-3 - International Design & Technical Standards

International Standard IEC 62040-3 has been prepared by subcommittee 22H: Uninterruptible power systems (UPS), of IEC technical committee 22: Power electronic systems and equipment. This second edition cancels and replaces first edition published in 1999 and constitutes a technical revision. The significant technical changes are: – reference test load – definition and application revised (3 ...

#### INTERNATIONAL STANDARD NORME INTERNATIONALE

Standard IEC 62040-3 defines the three types of UPS as: A Passive Standby A Line-Interactive A Double Conversion These terms define how the UPS operates with utility power, that is, the way the power is passed on to the critical load. The following definitions are taken verbatim from IEC Standard 62040-3. Passive Standby (IEC 62040-3.2.20)

The following excerpts from the draft International Electrotechnical Commission (IEC) standard 62040-3 Ed. 2.0 Final Draft International Standard (FDIS) are referenced by the final draft ENERGY STAR Test Method for uninterruptible power supplies (UPS).

#### Appendix B: Excerpts From Draft IEC Standard 62040-3 Ed. 2 ...

This is an incomplete list of standards published by the International Electrotechnical Commission (IEC). The numbers of older IEC standards were converted in 1997 by adding 60000; for example IEC 27 became IEC 60027. IEC standards often have multiple sub-part documents; only the main title for the standard is listed here. IEC 60027 Letter symbols to be used in electrical technology; IEC 60028 ...
