If you get these sort of calls, messages or emails from any source, report them immediately to your bank customer care. These are known as phishing scams and must be reported to your bank instantly. Create a Strong Password. Create a strong online banking password using upper- and lower-case letters, numbers, and symbols.

~~How to Safeguard Your Online Banking Information~~

The Regulations ensure that PSPs protect customer funds by creating a segregated asset pool of relevant funds from which to pay the claims of electronic money (e-money) holders or payment service users in priority to other creditors if the PSP becomes insolvent. Our review into authorised payment and electronic money institutions identified both positive and negative practices in the ways in which these institutions sought to comply.
