CA InterTest™ for CICS helps you deliver quality applications quickly and improves CICS performance and stability by preventing errors before they occur. It delivers automated testing and debugging tools to help improve your team's efficiency and ensure that your applications meet established service levels.

CA InterTest™ for CICS
CA InterTest for CICS is an essential tool for both application and system

programmers: It makes CICS testing faster, easier, and more effective. It prevents CICS crashes by automatically detecting and preventing application errors before they damage CICS. It provides powerful capabilities for examining and modifying main and auxiliary storage.
