Introduction to Guidance and Counseling - Evaeducation

Guidance counseling, byname counseling and guidance, the process of helping individuals discover and develop their educational, vocational, and psychological potentialities and thereby to achieve an optimal level of personal happiness and social usefulness. The concept of counseling is essentially democratic in that the assumptions underlying its theory and practice are, first, that each individual has the right to shape his own destiny and, second, that the relatively mature and experienced ...

Guidance counseling | Britannica

Counselling * is the procedural aspect of guidance; it is therefore the interaction that comes as a result of the vocational relationship between a specialized counselor and his student where the counselor assists the student to understand himself and his abilities and talents to achieve self and environmental compatibility in order to attain the appropriate degree of mental health in light of the techniques and specialized skills of the guidance process.
