Topology is the branch of mathematics that deals with surfaces and more general spaces and their properties, such as compactness or connectedness, that are preserved by continuous functions. Concepts such as neighborhood, compactness, connectedness, and continuity all involve some notion of closeness of points to sets.

MATH 560 Introduction to Topology
Solutions to B. Mendelson: Introduction to Topology. This book is meant to cover a basic topology course for undergraduates and I found it very approachable even with my limited background in pure math. Moreover, being about 200 pages long and published by Dover, it costs the equivalent of a cheap lunch. The exercises are (so far) not very long and complicated, so I just attempted to write and scan them as I go and post in batches.
