The Tracking Record for Improving Patient Safety is the key tool used for measurement in the FMP, and replaces old incident reporting tools. The key indicators for the FMP are outcome measures that include falls, residents who fall, residents with two or more falls and fall related serious injuries . When studied over time, these key indicators are the best markers of improvement.

The Falls Management Program: A Quality Improvement ...

1. Tool 19 Falls data spreadsheet. Introduction. Using the spreadsheet to manage your falls data is a quick and easy way to gather and analyse information about falls in your care home. In turn, this can help you to know what improvements you need to make to prevent further falls and monitor the impact.

Tool 19 Falls data spreadsheet Introduction
