Case study: Implementing ISO 14001 in an airport. John Nolan | June 13, 2017. Modern-day airports can be considered “high risk” sectors and have a significant impact on the environment, so it is no surprise that pressure is being brought to bear from special interest groups and government bodies in many countries to reduce this impact accordingly, with ISO 14001:2015 being the obvious choice to manage and control performance.

ISO 14001 Case study – Implementing an EMS in an airport

ISO 14001 case study: How to handle complaints . John Nolan | May 23, 2016. One of the key elements of any EMS (Environmental Management System) is how complaints from customers or stakeholders are dealt with. The ISO 14001:2015 standard provides guidance on how to approach a compliant, but there is good news, too – research suggests that ...

ISO 14001 Case study for hospitals: How to identify environmental aspects. A 2015 study in the United Kingdom by the National Health Service showed that on average £1994 (\$2867) was spent per head on medical services and treatment. Given the numbers of hospitals in most of western society and the huge footfall through the doors to use medical services it is clear that the amount of goods and services purchased and resultant environmental impact will be potentially huge.
