~~Environmental Key Performance Indicators~~

A performance indicator or key performance indicator is a type of performance measurement. KPIs evaluate the success of an organization or of a particular activity in which it engages. Often success is simply the repeated, periodic achievement of some levels of operational goal, and sometimes success is defined in terms of making progress toward strategic goals. Accordingly, choosing the right KPIs relies upon a good understanding of what is important to the organization. What is deemed importan

~~K Street Embraces KPIs — Public Affairs Council~~

A key performance indicator (KPI) is a value used to monitor and measure effectiveness. Although some, like net profit margin, are nearly universal in business, most industries have their own key performance indicators as well. Some Examples of KPIs

~~The Basics About Key Performance Indicators~~

Key Performance Indicators (KPIs) are the critical (key) indicators of progress toward an intended result. KPIs provides a focus for strategic and operational improvement, create an analytical basis for decision making and help focus attention on what matters most. As Peter Drucker famously said, "What gets measured gets done."
