Krell KSA-100S power amplifier Specifications Description: Power output: 100W into 8 ohms (20dBW), doubles with each halving of load impedance down to 1 ohm. Frequency response: 20Hz–20kHz, +0.0/– .1dB; 1Hz–150kHz, +0.0/– 3dB.

Krell KSA-100S power amplifier Specifications ...

When I spoke to Krell back then (over 6 years ago), they told me to measure one of the resistors next to the transistors on the heat sink. On the KMA 100, the fan was on the bottom and the heatsink tunnel was on top. The heatsink had 8 transistors (I think) and each had a big black resistor next to it. I am guessing the KSA has TWO fans with TWO heat sinks (one per channel) with 8 transistors ...

Need Technical Advice on Biasing a Krell KSA100 ...

The original KSA-50 (and KSA100) were both true dual mono amplifiers all the way back to the line cord. In the original Krell it was ~37.5 VDC, bias ~1.9A per channel, ~60w/8ohm class A, ~75w/8ohm class AB. People have built these unmodified with 39VDC. Transformers: Krell used a 400va transformer per channel, ie two per stereo chassis. In the ...

Krell KSA-50 clone - Samogradnja - HiFi forumi

KRELL, or your distributor, will convert your KSA—80B into a KMÄ—160 at no charge, with the exception of freight. You purchase an additional ntÄ—160 from your dealer and we, or the distributor, will ship the converted amplifier and the new mono unit as a pair.

MAL Designs

This is a clone Krell's KSA 50 amp which helped put the company on the map during the late 80s and early 90s. It is a pure class A amp and delivers a very sweet sound.

Krell KSA-80 Power Amplifier Repair and Restoration New Transistors, Diodes and Capacitors

Of course the KSA-100 and -200 and the KMA-80 and -160 were superb amplifiers, but there were competitors who gave up very little in the bass region and offered much more harmonic and musical honesty. In this respect, the KSA-250 is a landmark product for Krell; unquestionably their most refined amplifier to date, and possibly the most successful blend of solid-state and vacuum-tube virtues to ...

Krell KSA-250 power amplifier | Stereophile.com

I purchased the Krell KSA 150 from High Performance Stereo in Florida. They replaced all the caps in the amp. It sounds amazing through my Acoustat 1+1s speakers and subwoofer system. It does run rather hot as any Class A amp design from this amp's original period in history. I measured the heat sink fins at 60 ° C Pre-Amp: Classe SSP-600

Krell KSA 150 Amplifiers user reviews : 4.8 out of 5 - 10 ...

As many of you will know, the Krell KSA-200S is a beast of an amplifier, up there with the very best products Krell ever made. It is almost unliftable by one person, being hewn from solid slabs of steel and aluminium. Consider for a moment that this nominally 200 watts per channel amplifier contains a 2,000VA mains transformer and weighs the best part of 50kg! You really get a sense of the ...

Krell KSA-200S Class-A Amplifier Repair and Restoration ...

Krell released its first integrated amp, the KAV-300i, back in the mid-90s. That was a terrific performer, and this current version reminds us of that. The current integrated may be the cheapest amplifier the company currently makes but it still delivers a concentrated dose of the fabled Krell sound. Add the forward-looking feature set and you ...

Jadis JA-80 , Original Schematic for service

I'd expect a KSA-50 to fetch up to £ 1,000, a KSA-100 about £ 1,200, a KSA-80, up to about £ 1,600. I'd take the 50 or the 80 but not the 200, thanks. Cheers, It's the 50 I want TBH.

Krell ksa 200 - Art of Sound Forum

When I service a KSA-150, I assess the state of these parts and upgrade them where necessary. The Krell KSA-150. This particular customer KSA-150 was in excellent condition, my customer had just purchased it and wisely decided that an inspection was in order. My customer was sure that the amp was a locally supplied unit but the back plate ...
