Online Library Learning Disabilities Understanding The Problem And Managing The Challenges

~~Learning Disabilities: Understanding the Problem and ...~~

Learning disability is a term that is defined in a number of ways: The National Institute for Health and Care Excellence (NICE) defines a learning disability as meeting the three core criteria of lower intellectual ability (usually an IQ of less than 70), significant impairment of social or adaptive functioning, and originating in childhood

~~Understanding learning disabilities : Training Matters~~

Learning disabilities are caused by something affecting the development of the brain. This may occur before birth (prenatally), during birth, or in early childhood. Learning disabilities can be caused by any one of a variety of factors, or by a combination. Sometimes the specific cause is not known. Possible causes include the following:

~~Learning disabilities | Foundation for People with ...~~

When symptoms presented by someone with a learning disability are attributed to their learning disability, rather than the true problem; Staff supporting people with a learning disability “are likely to use a challenging behaviour rather than a mental health conceptual framework to understand problematic behaviours”.

mathematical concepts, and with general comprehension. Learning disabilities include a group of disorders such as dyslexia, dyspraxia, dyscalculia and dysgraphia. Each type of disorder may coexist with another.

~~Learning Disability In Children: Causes, Signs & Treatment ...~~

Dyscalculia (/ , d ɪ s k æ l ' k j u : l i ə /) is a disability resulting in difficulty learning or comprehending arithmetic, such as difficulty in understanding numbers, learning how to manipulate numbers, performing mathematical calculations and learning facts in mathematics. It is sometimes informally known as "math dyslexia", though this can be misleading as it is a different condition.

~~Dyscalculia—Wikipedia~~

Dyslexia is a learning disability in reading. People with dyslexia have trouble reading at a good pace and without mistakes. They may also have a hard time with reading comprehension, spelling, and writing. But these challenges aren't a problem with intelligence.

A learning disability is a reduced intellectual ability which can cause problems with everyday tasks - for example shopping and cooking, or travelling to new places - which affects someone for their whole life.

~~Concerns over lack of clinical ... — Learning Disability~~
Learning Disabilities (LD) Learning disabilities (LD) are problems in neural processing. These problems can interfere with basic learning skills such as reading, writing, and/or math. They can also interfere with top-level skills such as time planning, abstract thinking, organization, short or long-term memory, and attention.

~~Learning Disabilities—The Behavioral and Emotional ...~~
It's one thing to read about learning and thinking differences. It's another thing to see them through your child's eyes. Experience firsthand how frustrating it is when your hand won't write what your brain is telling it to. Or how hard it is to complete a simple task when you have trouble focusing.

Online Library Learning Disabilities Understanding The Problem And Managing Through Your Child's Eyes Tool | Learning Disabilities

Learning and attention issues are brain-based difficulties in reading, writing, math, organization, focus, listening comprehension, social skills, motor skills or a combination of these. Learning and attention issues are not the result of low intelligence, poor vision or hearing, or lack of access to quality instruction.
