simplified version, (2), has three sentences, 19 words and five s-nodes. The elaborated version, (3), is a single sentence containing 26 words and fives nodes. Thus, the average number of words (6.33) and s-nodes (1.66) per sentence in the simplified version are both much lower than in the other two,

SIMPLIFICATION OR ELABORATION? THE EFFECTS OF TWO TYPES OF ...

Gustavo Henrique Paetzold, Lucia Specia. Published2017. Lexical Simplification is the process of replacing complex words in a given sentence with simpler alternatives of equivalent meaning. This task has wide applicability both as an assistive technology for readers with cognitive impairments or disabilities, such as Dyslexia and Aphasia, and as a pre-processing tool for other Natural Language Processing tasks, such as machine translation and summarisation.

Elaboration Sentence Lexical Simplification And Elaboration Sentence Thank you certainly much for downloading lexical simplification and elaboration sentence.Maybe you have knowledge that, people have look numerous period for their favorite books behind this lexical simplification and elaboration sentence, but stop stirring in harmful downloads.

Lexical Simplification And Elaboration Sentence

Because we use individual sentences to measure perceived difficulty, in which coherence cannot be enhanced, only the effect of lexical simplification (IV1) is measured for perceived difficulty. Although this prevents the analysis of lexical coherence, it allows subjects to finish the study in a reasonable time while still reading all the text.
