[MOBI] Linear Accelerator Acceptance
Testing And Commissioning

- Learn how to acceptance test a linear accelerator. - Learn how to commission a treatment planning system for a linear accelerator. Where possible, the resident will participate in all aspects of the acceptance of a new linear accelerator as part of this rotation.

Contents Outline Linear Accelerator
Acceptance and ...

Abstract (Swedish) When a new linear accelerator is installed at a department it is of great importance that it is carefully controlled and calibrated before being put into clinical use. This is done with the acceptance test (AT). The mechanical

management program in a radiotherapy clinic utilizing external beam radiation therapy will include performance testing of a linear accelerator (linac). The linac must be tested routinely to ensure that current performance parameters have not deviated from baseline clinical parameters acquired at the time of acceptance of the machine.
