Managers need to interpret the environment in order to plan, organise, direct, coordinate and control the efforts of their organisations. [2] As an institutional process, management of defence is situated between defence policy formulation and actual command and control of the military forces. The process should address areas of action such as defence resource management, personnel management, and acquisition management.

~~About Defence Management~~ ~~Security Sector integrity~~

1. appraise key academic theories in strategic management and their relevance in a defence context. 2. describe strategy and strategy process. 3. critically analyse commercial situations to determine the relevance of particular theories. 4. develop academically grounded arguments to support a particular stance.
