Code::Blocks V2.0 beta 1.11 Tips for working with Code::Blocks 1.11.1 Tracking of Modifications Code::Blocks provides a feature to track modifications within a source file and to show a bar in the margin for the changes. Modifications are marked with a yellow changebar and modifications that are already saved will use a green changebar (see Figure 1.11 on

Manual - Code::Blocks

After you have finished downloading and setting up the Code::Blocks system, you can begin to write code. Code::Blocks creates what is called a Workspace to keep track of the project you are working on. It is possible for you to be working on multiple projects within your workspace. A project is a collection of one or more source (as well as header) files. Source files are the files that contain the source code for your program.
