The VHF DSC Radio Simulator is software, for PC or Apple Mac, supplied on a CD. The program must be installed to the hard drive of the computer and is then launched from its desktop icon when required. At launch, you have a main VHF radio set with all its major functions operating exactly as a real radio.

Physically, the marine VHF radio is a

File Type PDF Marine Vhf Radio Simulator

combined transmitter and receiver, often called a transceiver. The PTT (Push to Talk) button located on the microphone or handset, controls which mode the radio is in at that moment. When you depress the PTT the radio becomes a transmitter when you release the PTT the radio returns to the receiver mode.
