Mathematics with Applications in the Management, Natural, and Social Sciences presents sound mathematics in an understandable manner, proceeding from the familiar to new material and from concrete examples to general rules and formulas.

Amazon.com: Mathematics with Applications In the ...

A strong foundation and logical progression through finite math and calculus. The unique organization of Mathematics with Applications in the Management, Natural, and Social Sciences gives students four chapters of college algebra, rather than the usual two, before moving into finite math and calculus. From there, the authors build upon familiar foundations and then move to new concepts; students are shown concrete examples before learning general rules and formulas.

Mathematics with Applications In the Management, Natural ...

In Mathematics with Applications in the Management, Natural, and Social Sciences, students build a strong foundation with four chapters of algebra coverage before tackling finite mathematics and applied calculus topics. This natural progression from foundational to more advanced topics and from concrete examples to general rules and formulas is apparent throughout the text.
