Yes, I already have a complete set of templates for the MD-80 series, but the DC-9 is a major aircraft type that I needed to get into my collection ASAP. The good news is that I think it 's going to be a lot easier than the 737 series was. There are only a handful of major DC-9 variants, and all of them are relatively similar to one another. In order to keep things as simple and organized for me, I 've decided to start with the latest version first (the -50) and then work my way backwards.
