With its comprehensive overview of core technology areas, MCSD in a Nutshell is the perfect study guide and resource to help developers master technologies that are less familiar to them. In fact, its thorough review of Visual Basic-related development technologies also makes this an excellent tutorial for experienced VB programmers who wish to get up to speed on speed on some technology with which they work infrequently, if at all. Most certification books are really tutorials in disguise.

I read four other guides for 70-176 and 70-170 from Microsoft and Sybex. The training kit from Microsoft is good, but for beginning developers. The Sybex guides are awful. Believe me if you need to go to basics, get the Microsoft guide and then go to MCSD in a Nutshell to get all answers for the exams.
