Launched in 2002, the MG TF was based on the MGF. Heavily reworked, the most notable change was the shift away from the MGFs Hydragas suspension to a more traditional springs and shocks arrangement. Other tweaks included increasing the car's rigidity in a bid to improve dynamics, and a redesigned airflow path for the cooling system to prevent the K-series pulling its usual party trick of ...

MG TD (1949-1953) BUYER'S GUIDE. The T-Type series had started with the TA of June 1936. This was not universally welcomed by MG enthusiasts as it was less sporty than previous Midgets, not least because it had an OHV MPJG engine which was seen as a retrograde step from the earlier overhead cam units. The TB followed shortly before the outbreak of WW2 with a better engine (the XPAG unit developed from the all-new Morris XPJM OHV engine) that was capable of considerable tuning, but events ...
