to 12 50 minute periods of classwork.

Safety Program Design and Management. Module II. Man ...

In Module 3 Man, Machine and Environment we discuss three basic driver actions that affect the direction and velocity of a motor vehicle which are Braking, Steering, and Accelerating. We also discuss the effect of speed on force of impact, and what happens in a crash.

American Safety Council – New Jersey Safe Motorist Course ...

On remote nodes, the exact environment is determined by the boot MCA module used. The rsh launch module, for example, uses either rsh / ssh to launch the Open RTE daemon on remote nodes, and typically executes one or more of the user's shell-setup files before launching the Open RTE daemon.

mpirun(1) man page (version 4.0.5) - Open MPI

The model consists of three main modules: Semantic Generation, Clothes Warping, and Content Fusion. The Semantic Generation module receives the image of a target clothing and its mask, data on the person's pose, a segmentation map with all the body parts (hands are especially important), and clothing items identified.
