Mototrbo Cps Manual - dc-75c7d428c907.tecadmin.net
The MOTOTRBO Series Digital Portable radio meets IP57 specifications, allowing the radio to withstand adverse field conditions such as being submersed in water.

• If the radio has been submersed in water, shake the radio well to remove any water that may be trapped inside the speaker grille

and microphone port.

Motorola MOTOTRBO Repeater Basic Service Manual – HamFiles
Restricted Access to System (RAS) is an Enhanced security feature that is used to provide additional protection of data within the system. If the RAS policy is enabled in both the repeater(s) and radios, then changes need to be applied manually in TRBOnet Server (and in TRBOnet Watch if Watch used for system with RAS) configuration file.

RAS support in TRBOnet - MOTOTRBO Radio Dispatch

Solutions

We just deployed Radio Management 2 to our fleet of about 80 radios on an IPSC system. This is an upgrade from traditional CPS and USB cables. I was really excited thinking it would cut down on having to modify every single codeplug. But, after playing with it, it still looks like I have to...
