The National Board Inspection Code (NBIC) was first published in 1946 as a guide for chief inspectors. It has become an internationally recognized standard, adopted by most US and Canadian jurisdictions. The NBIC provides standards for the installation, inspection, and repair and/or alteration of boilers, pressure vessels, and pressure relief devices.

National Board Inspection Code

The National Board Inspection Code (NBIC) is issued every two years and is organized into four (4) parts. It is developed to maintain the integrity of pressure-retaining items by providing rules for installation (Part 1), and after the items have been placed into service, by providing rules for inspection (Part 2) and repair and alteration (Part 3), thereby ensuring these items may continue to be used safely.
