National Geographic The Photographs by Leah Bendavid-Val

The National Geographic Image Collection is one of the world ' s most significant photography archives. Its tens of millions of images capture the planet (and beyond) as explored by scientists, adventurers, writers, and photographers, from the 19th century through today.

National Geographic Image Collection

Say the words “ National Geographic, ” and the first thing that comes to mind is photography. We are known, and have been for most of the past 130 years, for taking people on visual journeys into every corner of the Earth—from the highest mountains to the deepest oceans, from jungles to deserts, from the biggest metropolises to the most remote countrysides.

Through the Lens is a conucopia of National geographic's best photographs created since 1890 when the Society first started commissioning photographers to go out into the world and bring images back to its readership. Many of the 250 photographs have been previously published in the magazine but a great number of them are images that did not make the final edit but have great merit on their own.

With an introduction by National Geographic photographer Stephen Alvarez, whose work has taken him from the Peruvian Andes to the deepest caves of Papua New Guinea, Rarely Seen captures once-in-a-lifetime moments, natural wonders, and little-seen objects from the far reaches of the globe.

National Geographic Rarely Seen: Photographs of the ...

Culled from National Geographic's vaunted photo archives, spanning a period of more than 130 years, this provocative collection depicts the splendor of this great nation as only National Geographic can, with a dramatic combination of modern and historical imagery--from the creation of architectural icons like the Golden Gate Bridge and Lady Liberty to the last of the country's wild places preserved in our national parks.

Amazon.com: America the Beautiful: A Story in Photographs ...

National Geographic photographers have always captured animals in nature at their most beautiful, fascinating, and mysterious. In 2019, a different theme dominated our photojournalism: animals, as they ’ re affected by us. In the Bolivian Amazon, John Paul Ampudia photographed a man soothing an injured armadillo rescued from a forest fire.

These are our best animal photos of 2019 | National Geographic

Photo Ark is a multiyear effort to document every species living in zoos and wildlife sanctuaries, inspire action through education, and help save wildlife by supporting on-the-ground conservation efforts. National Geographic photographer Joel Sartore started the Photo Ark in his hometown of Lincoln, Nebraska, in 2006. Since then, he has visited more than 50 countries and photographed more than 10,000 species in his quest to create this photo archive of global biodiversity.
