NEMA's flagship Standard, MG 1 assists users in the proper selection and application of motors and generators, and contains practical information concerning performance, safety, testing, and manufacture of AC and DC motors and generators.

~~Updated Sections Now Available for Motors and Generators ...~~
The requirements in this standard are applied to 50 Hz and 60 Hz, two-pole and four pole, cylindrical-rotor synchronous generators driven by steam turbines and/or by combustion gas turbines. The drive may be direct or through a gearbox or other device that permits different speeds for the turbine and the generator. The generators covered by this standard are to have rated outputs of 10 MVA and ...
