Automatic Exposure Mode Quick Guide

if you prefer. The D90 sets exposure steplessly, regardless of this setting. Missing: I use the full-stop setting of the D300, D700 and D3, missing in the D90. Design Flaw: Ideally Nikon would provide separate settings for manual and auto exposure.

Access Free Nikon D90

I'd set 1/3 stops for manual exposure and full stops in auto exposure (P, S and A modes).

Daily Photography
Quick Guide
Tips

Shooting modes fall into three categories: auto, scene, and P, S, A, and M modes. In auto and scene modes the camera controls shutter speed and aperture. P, S, A,

Access Free

Nikon D90

and M modes are known as exposure modes and give photographers a choice as to which elements of exposure—aperture or shutter speed—they wish to control.
