Handling CISSP Practice Questions of the Day from IT Dojo - #96 -SDLC NIST SP 800-53 REV 5 Final 2017 08 31 12 02 Using the NIST Cybersecurity Framework to Guide your Security Program Nist Sp 800 16 Information This document supersedes NIST SP 500-172, Computer Security Training Guidelines, published in 1989. The new document supports the Computer Security Act (Public Law 100-235) and OMB Circular A-130 Appendix III requirements that NIST develop and issue computer security training guidance. This publication presents a new conceptual framework for providing information technology (IT) security training.

NIST Special Publication (SP) 800-16. Information ... SP 800-16 describes information technology / cyber security rolebased training for Federal Departments and Agencies and Organizations (Federal Organizations). Its primary focus is to provide a comprehensive, yet flexible, training methodology for the development of training courses or modules for personnel who have been identified as having significant information technology / cyber security responsibilities.

NIST Special Publication (SP) 800-16 Rev. 1 (Retired Draft ... Abstract This document supersedes NIST 500-172, Computer Security Training Guidelines, published in 1989. The

new document supports the Computer Security Act (Public Law 100-235) and OMB Circular A-130 Appendix III requirements that NIST develop and issue computer security training guidance.

Special Publications). They have two documents that relate to security awareness and education. The first is SP800-16, the second is SP800-50 which is titled "Building an Information Technology Security Awareness and Training Program". As stated by NIST, the difference between the two are as follows.

SP 800-16 describes information technology / cyber security role-based training for Federal Departments and Agencies and Organizations (Federal

Organizations). Its primary focus is to provide a comprehensive, yet flexible, training methodology for the development of training courses or modules for personnel who have been identified as having significant information technology / cyber security responsibilities.

(Third) Draft Special Publication 800-16 Revision 1 - NIST
Publications in NIST 's Special Publication (SP) 800 series present information of interest to the computer security community. The series comprises guidelines, recommendations, technical specifications, and annual reports of NIST 's cybersecurity activities. SP 800 publications are developed to address and support the security and privacy needs of U.S.

Federal Government information and information systems.
