Normal Accidents: Living with High Risk Technologies ... We think of " accidents " as tragedies that plague our lives. A car crash where a beloved family member dies. A plane crash in bad weather kills hundreds. Normal Accidents takes a high-level view and shows us that incidents should be expected and they can be predicted. First off, this book is not a statistical analysis. IE, car crashes are X% likely.

Normal Accidents: Living with High Risk Technologies ... Normal Accidents: Living with High-Risk Technologies is a 1984 book by Yale sociologist Charles Perrow, which provides a detailed analysis of complex systems from a sociological perspective. It was the first to "propose a framework for characterizing complex technological systems such as air traffic, marine traffic, chemical plants, dams, and especially nuclear power plants according to their riskiness". Perrow argues that multiple and unexpected failures are built into society's complex and tig
