Every Astronaut Gets An Omega Speedmaster. Since then, Omega Speedmaster's have been issued to every employee in the NASA Astronaut program. In addition to the Omega Speedmaster, astronauts are allowed to bring a second watch of their choice on space flights, and many brands have seen the depths of the final frontier.

Omega Speedmaster Watch Guide - Gentleman's Gazette

Omega Reference Numbers Guide. Omega is one of the most recognized and well-known watch brands in the world. Having been an official timekeeper of many of the world's Olympic Games, the watch of choice for James Bond, and NASA, the brand has been able to build prestige and reputation throughout the years. The market for vintage Omega watches is huge, and some of the Omega models are able to fetch huge sums at auctions that go to show that Omega is a well-respected watch brand by collectors ...

Omega Reference Numbers Guide - Millenary Watches

Omega Serial Numbers: A Complete Guide. Serial numbers on watches are often quite tricky to understand. Plus, all watch brands have a different serial number system which further complicates it. Serial numbers are numbers that are unique to each and every Omega timepiece and can be viewed as the ID of the watch. Through the Omega serial number, you can verify the watch's authenticity, and you can also verify that the watch is not stolen.

Omega Serial Numbers: A Complete Guide - Millenary Watches

OMEGA is proud to include the Swiss Made mark on all of its watches. This simple wording guarantees a standard of quality that has been established over many centuries and is today a world-renowned symbol of excellence. This is a quick guide to decrypting Omega Case Reference numbers which were used from roughly 1963 through 1996. Watches made prior or after these dates are likely to use a different scheme for distinguishing models. These numbers are typically found on the internal (movement) side of the case back.

Omega Case Reference Numbers - A Quick Reference Guide...

Omega's 39-millimeter Constellation Steel Chronometer is a timeless watch that pairs a sleek, minimalistic design with the company's "dramatic" architecture. On its exterior, a reflective steel case gives way to the timepiece's subtle intricacies, including half-moons, claws, a mono-rang bracelet, and engraved Roman numerals on its bezel.

The Complete Guide To Omega Watches | HiConsumption

Omega is a great brand. Both the new and the vintage models are fantastic. However, if you buy a new one from an AD or boutique, the risk of buying a lemon is very low. You can buy one with a factory flaw, but that's out of your hands.
