A Multidisciplinary Review of Nutrition Considerations in the Pediatric Oncology Population: A Perspective From Children's Oncology Group. Elena J. Ladas MS, RD

Oncology: Nutrition in Clinical Practice: Vol 20, No 4

Based upon this evidence, the Oncology Nutrition Dietetic Practice Group (ON DPG), a practice group of the Academy of Nutrition and Dietetics (Academy), formulated a strategic plan to address nutrition-related gaps in cancer care. The ultimate goal of the strategic plan is to improve patient access to oncology nutrition care from the time of diagnoses, through treatment and into cancer survivorship, for whatever period of time survivorship may encompass.

The Oncology Nutrition Dietetic Practice Group or ON DPG is a dietetic practice group of the Academy. We are a national organization with over 2000 members. The practice of oncology nutrition covers research, prevention, treatment, recovery, palliative care, and hospice. The ON DPG provides dietetic professionals with resources and networking opportunities to deal with the complexities of oncology practice.

About Us - Oncology Nutrition DPG

Therefore, the need for adequate nutritional interventions in cancer has been stressed for decades. 24,25 In the oncologist's clinical practice, however, awareness for the nutritional status in cancer patients remains scarce, demonstrated by the fact that it is not regularly assessed in hospitals or ambulatory oncology services as part of standard procedures. 26 29
