During the Automate 2022 trade show on June 6-9 in Detroit, Southwest Research Institute is introducing new automation technology that allows industrial robots to visually classify work and ...

New robotics image processing tools to automate aircraft surface preparation
During the Automate 2022 trade show between June 6-9 in Detroit, Southwest Research Institute introduced new automation technology that allows industrial robots to visually classify work and ...

SWRI develops new robotics image processing tools
The introduction of robotic process ... agent would need to open 4 to 6 multiple applications while responding to a customer’s query. It is a tedious and time-consuming process to open each ...

Robotic process automation (RPA) :What it is, how it works and its benefits
The fully containerized Ubuntu 22.04 LTS release introduces support for real-time compute in robotics and industrial applications.

Ubuntu Core 22 now supports real-time compute for robotics
Bakers must focus on product consistency to ensure robots can easily fit delicate baked goods into a variety of package formats.

Robotic packaging requires strict process controls
After [Brian] starting selling his own Raspberry Pi expansion boards, he found himself with a need for a robot that could solder 40-pin headers for him. He first did what most people might do by ...

Open Source, DIY Soldering Robot
We love the project’s manifesto: Robot Is: Imagined first. Easy to build. Completely open source. Fiercely social. Intentionally iterative. Filled with humanity and dreams. Thinking for her/him ...

Meet Jimmy: An Open Source Biped Robot From Intel
ROBOTCORE™ launches with support for more than 10 development boards, including the most popular hardware acceleration solutions to build robots with ROS. The framework builds on top of proven ...

Acceleration Robotics Launch ROBOTCORE™ to Speed-up ROS 2 Robots
PickNik Robotics and Optimax Systems released a ROS 2 driver for ABB. The package has been tested with an ABB IRB 1200-5/0.9 manipulator.

ROS 2 driver now available for ABB’s robot arms
Global Robotics Process Automation in Finance Market Report by Market Study report scrutinizes the overall market synopsis globally, their restraining factors, drivers, major challenges, opportunities ...

Robotics Process Automation in Finance Market foresee by Technology, Solutions, Application, Price, Demand scrutiny and Growth Opportunities to 2026
But is BitQL a legit trading robot? In today’s BitQL evaluation, you’ll find out whether this platform deserves your time. Continue reading for a full breakdown.

BitQL \u2013 Is it a legit trading robot?
Image Credits: Open Robotics The offering arrives as part of the latest version of the open source Robotic Operating System, ROS 2 Humble Hawksbill-- the eighth release of ROS 2. In a nutshell, it ...

FogROS brings robotic cloud computing to the Robot Operating System
Think of it as a more endearing version of the headless robot dog, Spot. Obviously designed to be a bit of fun for coding, it’s actually operated via OpenCat (yes, there was a cat version), which is ...

Palm sized robot dog operates with OpenCat
The robotics and automation actuators market includes various players, such as product manufacturers and solution providers. The market size of robotics and automation actuators market is estimated to ...
