Upgrades are quick and add-ons — like optical character recognition (OCR) — are extensive. "I've used NVDA for most of the time I've used computers." At his company, Ojala primarily ...

~~The hidden history of screen readers~~

It is a recognition that we cannot settle many questions ... involved in employing a wave theory for explaining one set of optical phenomena, a corpuscular theory for another.

~~For A Classless Society:~~

Researchers at Oxford University's Department of Materials, working in collaboration with colleagues from Exeter and Munster have developed an on-chip optical processor capable of detecting ...

~~Seeing the light: Researchers develop new AI system using light to learn associatively~~

The pataphysical character of the Large Glass was confirmed by the way it was "finished." Duchamp stopped working on it in 1923, and it was first exhibited in 1926 in the Brooklyn Museum. On its way ...

~~OF 20TH CENTURY ART~~

Engineers at Caltech have developed a switch—one of the most fundamental components of computing—using optical, rather than electronic, components. The development could aid efforts to achieve ...

~~New optical switch could lead to ultrafast all optical~~
