Oracle Bam Guide - lcau.cryptoneumcoin.co
Oracle BAM users and groups are created in Oracle WebLogic Server Administration Console (or in a security provider configured for your Oracle WebLogic Server); application-level roles are administered and new groups/roles and policies/grants can be created in Fusion Middleware Control (in Application Policies); and the users' Oracle BAM objects are managed in Oracle BAM Administrator.

Managing Oracle Business Activity Monitoring
Only an Oracle BAM user with an Administrator role can create data objects, modify their structure and metadata, and grant security permissions to other roles. For more information, see Creating and Managing Oracle BAM Data Objects. 5.1.3 Data Object Types There are four types of data objects:

Monitoring Business Activity with Oracle BAM
Select the Oracle BAM user whom the alert runs as. You can select only one run-as user. The default run-as user is you, the logged-in Oracle BAM user who is creating the alert. You can select a different run-as user if another user has greater permissions to access the data object being monitored.

Monitoring Business Activity with Oracle BAM
Oracle BAM supports drilling to details which allows the end user to see the lowest level of detail for the data which was used to calculate a particular element of the chart. The dashboard designer can choose which fields and in what order the user will see when they drill through to the low-level details.

Oracle Business Activity Monitoring
The legacy web services allow users to manipulate BAM 11g Data Objects in the Oracle BAM 12c Server by inserting, updating, deleting, and upserting rows into the Data Objects. The following operations are supported by these web service interfaces. Batch performs batch operations on a data object. Batch is not available in the DataObjectOperationsByName web service.

Using Oracle BAM Web Services
Download Ebook Oracle Bam User Guide Pete Wang "Oracle BAM 11gR1 Handbook" is a practical best practices tutorial focused entirely on Oracle Business Activity Monitoring. An intermediate-to-advanced guide, step-by-step instructions and an accompanying Questia Public Library has long been a favorite choice of librarians and scholars for research help.

Oracle Bam User Guide - princess.kingsbountygame.com
Oracle Bam Guide Oracle BAM uses Oracle Data Integrator to select the correct raw data and then transform and perform calculations required by the data designer. The transformed data is delivered to the Oracle BAM Active Data Cache in a ready-to-use state for fast access. Oracle BAM consists of several components: Introduction to Oracle Business Activity Monitoring - 11g
