Electrical Safety Certificates | NICEIC Electrical...

As the term self indicates, the country of origin of a product does not refer to the country of the exporter, but to the country where it is obtained or produced. In many cases the country of origin is also the country from which it is exported. However, there are various cases where these countries are different.

Certificate of origin – Wikipedia

Anything that's classed as an "installation" has to be done by a Part P electrician who gives you an Electrical Installation Certificate, which is requested as part of the Property Information Form when you sell. OP - be honest and tell the buyers you've lost it.
