## **Perry Mason - YouTube**

Despite a never-ending succession of guitarists, Ozzy Osbourne never changed his basic musical attack over the years. There are slight differences between the records, with the only noticeable distinctions being the production fads of the time. Ozzmosis, his sixth solo studio album, isn't all that different from his previous two records, No More Tears and No Rest for the Wicked, largely due to the still impressive skills of guitarist Zakk Wylde.
