Give your iPad or a similar tablet more flexibility. Just snap it into the cradle to free your hands: use a Bluetooth keyboard for intensive computing; position your tablet within your digital workflow by locating it alongside your main workstation monitor; move the screen where you can easily reference instructions or recipes.

Ergotron 45-306-101 Neo-Flex Tablet iPad Mount Arm

The DMB Series is a multi-board plastic box that provides from 6 to 72 PCB terminals, depending on the model. A snap-fit design provides tool-less assembly of all parts, including PC boards. The box allows for mounting PCBs on three levels. Removable terminal guards have snap-off tabs to match the number of terminals. DIN rail mount.

DIN Rail PCB Enclosure | DIN Rail Enclosure Accessory

For boards with areas that are not to be coated, your drawings should indicate the zones that should be masked in order to keep coating out. Areas of the board that are not normally coated would include EMI or RF shields, heat sinks, batteries. Adjustable devices like potentiometers, and connectors.

Low Voltage - P.C. Board Mount (160/161 Series) LOW VOLTAGE - P.C. BOARD VERTICAL MOUNT • 20 output voltages to choose from (5 - 120VAC R.M.S.) • Six VA size models available from - .5 to 24 VA • Vertical mount, split bobbin design. • Dual winding secondaries, non-concentrically wound • Low primary to secondary coupling - no electrostatic shield required. • Choice of economical ...

Low Voltage - P.C. Board Mount (160/161 Series)

Surface mount - construction method which allows components to be simply set on a board, not requiring that leads pass through holes in the board. This is the dominant method of assembly in use today, and allows boards to be populated quickly and easily. Thermal - a small trace used to connect a pad to a plane. If a pad is not thermally ...
